Extraordinary Powers in Humans Pane Andov 2007-06-07 Extraordinary Powers in Humans is a powerful manual for development of psychic abilities. the middle. Thus, to achieve all that, the book is written in a form of a special manual that leads one from the basics of the spiritual science to the point of discovering the most hidden spiritual secrets, which at the end leads to self-realization. The book is divided in six major sections that contain a huge amount of theoretical and practical data concerning meditation, Kundalini energy, astral projection, remote viewing, telepathy, aura, clairvoyance and psychokinesis. Also, the book offers the reader 18 of the author's astral trips describing his contacts with alien species as dominant subject. He claims most of them have come from the Zeta Reticuli star system in the time when Atlantis and Lemuria were in full glory, and stayed ever since. The book clearly points that this bio-computer we call a physical body, is only a tiny part of realities we are connected to. A human being is thus an infinite

consciousness connected to different layers of cosmic energy. Once read and fully understood, it can change one's perception of reality and offer direct path to human evolution. Anyway, the book is in elite of its kind and worthy to every human being in the process of awakening...

The Awakening - Life Force Energy
Pane Andov 2017-11-20 After decades of long research, filtering data and firsthand experience, the author has concluded that the human race has been and still is exploited in so many ways by at least a few extraterrestrial species. These extraterrestrial species have been around for at least 12,000 years. He also concluded that there is sufficient evidence that not all extraterrestrial species present in this solar system are negative and manipulative in nature, and that they are sometimes in conflict with the abusive ones. Some species want to help human species reactivate its lost genetic functionality and to evolve again, while others want to

keep the "status quo" of human perception and understanding, so they can continue their deceptive and exploitative activities as long as they can. The effort to try to understand what is going on, from the input generated only by the five senses, is not enough for the human race to fully understand what is happening and how to break free from this subtle manipulation and deception. He agrees that it is a start and necessary part of the process, but according to him, the real chance for humans getting their freedom back, is in the awakening of their latent potentials. Therefore, at this stage of the book, he is slowly and gradually moving towards the explanation about the human consciousness and its connection to the Force. Therefore, the power within is explained in full detail. From ancient Qi Gong system trained in parallel with Shaolin Kung Fu, to Tai Chi Chuan, ancient Kundalini

Yoga, Pranayama and Tantra Yoga system...the Qi, Chi, Prana or Kundalini, whatever terminology we want to use for this power within, a full overview is given. A complete overview of the Remote Viewing (RV) process is given and how it can be utilized by the consciousness to its fullest. The author fully explains that at the beginning stage of the RV, the observation and the extraction of information is limited only to the Etheric Plane of existence, but in time, as the training stage progresses, the student becomes capable of taking a step further by replacing the RV with a direct projection of the consciousness into the Astral Plane. Astral projection refers to an out of body experience during which the astral body leaves the physical body and travels to the Astral dimension. The book also deals with dreaming programs of holographic nature; why we are perceiving them inside the

Astral Plane or how they are artificially manifested inside our consciousness. A complete elaboration of four sources that the dreaming programs can originate from, are given. The author takes the entire human understanding of what dreams really are to a whole new level. There are many reasons for such holographic deception. Some of them are to not allow humans to have controlled astral excursions that will reveal the daily presence of alien ships inside the Astral Plane, not visible from the physical dimension. Furthermore, these conscious astral excursions will also reveal that these large flying objects are sending smaller flying vehicles or plasma orbs to perform various tasks, such as alien abductions, implantation of microscopic tracking devices or alien implants, alien cross breeding and genetic engineering programs, as well as many other activities that the

human population is not aware that are happening. The book deals with many different subjects combined in one powerful unity. It explains author's personal view of the Universe, how it came to be and how it functions. The author explains that the life force itself is coming from higher dimensions of the Universe, through a medium called Psionic medium. Once the necessary theoretical input is provided to the reader, the author is slowly turning the book into a training manual for awakening human latent potentials. For all truth seekers, esoteric practitioners and UFO researchers, it is a life-changing book. (c) Pure Tranquility <http://puretranquilitypublishing.com/the-awakening-life-force-energ>

Direct Action David Graeber 2009-09-01 A radical anthropologist studies the global justice movement. The Awakening - Key to the Extraterrestrial Messages Pane Andov 2017-11-20 In "The Awakening - Key to the Extraterrestrial Messages", the author shares his astral observations and what the majority of aliens are doing on Earth. It is a remarkable book fully illustrated and a "must" for one to understand the author's message in its entire complexity. In great details he deals with the genuine crop circle phenomenon and

Downloaded from awakeandaware2011.com on August 18, 2022 by guest

explains what the complex crop designs mean. Impressive research about non-thermal plasma balls making some of the crop formations is provided to the reader with evidence that cannot be denied. The book also deals with the author's personal life, how he started walking this path and which techniques he used to establish contact. Almost one third of his controlled and conscious out of body experiences are about encounters with extraterrestrial beings. Chronologically, the book begins with human efforts to extend the limitation of seeing into the invisible Universe. When we look into the Electromagnetic Spectrum, we see less than 1/10 Billionth of the information that's riding out there. In other words, we are only seeing a "tiny fraction" of the gigantic invisible Universe, that we call visible light. The author explains that the extraterrestrial civilizations present in this solar

system, have the capacity not just to cross the vast distances of space, but also have the capacity to literally move their space vehicles through dimensions. By default, that means that we are not able to see their spaceships, simply because they are cruising through the invisible Universe and they are out of the range of visible light. Therefore, the subject of special interest to the Shadow Government is to monitor the heavy UFO traffic in the solar system, especially around the Sun, in many wavelengths simultaneously and in high resolution. This book covers majority of topics that are interconnected in a beautiful and powerful way that take the understating of the entire UFO phenomena to a whole new level. The energy that emanates from some of the genuine crop formations, has multipurpose. One purpose is to transmit telepathic pulsating messages through the astral medium to

all people around the globe that are open and evolved enough to receive them. Till present day, these messages have inspired huge numbers of people to start working for the global Awakening, and to start putting their maximal efforts into the repair, restoration and regeneration of this world. The second purpose is that genuine crop circles sometimes serve as pulsating energy portals, from which powerful radiating divine astral energy streams outwards and creates ripples and holes in Saturn's holographic program inside Earth's Astral Plane. As the book explains, the Saturn system plays a major role in creating a false holographic reality during our sleeping time. Dark Type II and Type III civilizations are artificially engineering the rings of Saturn to serve as a powerful antenna to transmit and upload a super advanced alien software system inside Earth's natural astral layer. This

alien software creates a Hologram inside the Astral Plane, which is sensitive to human subconscious fears and stimulates the appearance of negative emotional energy, often experienced as suffering. This negative vibrational energy is then collected by certain type of orbs and taken back to the alien ships. In other words, the Astral Plane has been hacked by advanced alien hackers, to prevent human consciousness becoming self-aware on this plane of existence. The eventual awaking of the consciousness on the Astral Plane would lead to the utilization of latent but very powerful psionic potentials and towards a realization that we are not alone, and that we have been exploited by more advanced abusive species, just as we abuse and exploit animal species. As long as this will not happen, human beings will remain confused, disoriented and vulnerable to all kinds of subtle manipulations

Ikhana National Aeronautics Administration 2013-11 In 2006, NASA Dryden Flight Research Center, Edwards, Calif., obtained a civil version of the General Atomics MQ-9 unmanned aircraft system and modified it for research purposes. Proposed missions included support of Earth science research, development of advanced aeronautical technology, and improving the utility of unmanned aerial systems in general. The project team named the aircraft Ikhana - a Native American Choctaw word meaning intelligent, conscious, or aware - in order to best represent

NASA research goals. Researchers at Dryden have a long history of using remotely piloted research vehicles to expand the frontiers of knowledge. Among the first was the Hyper III, a Langley-designed lifting body. In 1975 a series of stall and spin tests was begun at the center with a group of 3/8-scale F-15 RPRVs. Flights of another aircraft, dubbed the "Mini-Sniffer," took place between 1975 and 1979, testing the concepts of an RPRV operating in the Martian atmosphere or conducting high-altitude atmospheric research around the globe. The DAST - Drones For Aerodynamic and Structural Testing - program, a high-risk flight experiment using a ground-controlled, pilotless aircraft, was undertaken at Dryden from 1977 to 1983. Described by NASA engineers as a "wind tunnel in the sky," the DAST vehicle was a specially modified Teledyne-Ryan BQM-34E/F Firebee II supersonic target drone. From 1979 to 1983 the

HiMAT (Highly Maneuverable Aircraft Technology) aircraft was flown, one of two subscale research vehicles meant to demonstrate advanced fighter technologies that have since been used in development of many modern high-performance military aircraft. In 1984 Dryden moved from small-scale vehicles to full-size aircraft when a pilot intentionally crashed a retired Boeing jetliner onto Rogers Dry Lake to test a compound meant to reduce post-crash fires on airliners. And Dryden was the center for operations of a family of solar-powered aircraft designed to explore the potential for such aircraft to monitor Earth's atmosphere as well as such other factors as moisture content in soil. Beginning in the 1990s, Pathfinder, Pathfinder-Plus, and Helios were all part of the Environmental Research Aircraft and Technology, or ERAST, program through which researchers hoped to mature RPRV and unmanned aerial system technologies. Building

on experience with these and other unmanned aircraft, NASA scientists developed plans to use the Ikhana for a series of missions to map wildfires in the western United States and supply the resulting data to firefighters in near-real time. A team at NASA Ames Research Center, Mountain View, Calif., developed a multispectral scanner that was key to the success of what became known as the Western States Fire Missions. Carried out by team members from NASA, the U.S. Department of Agriculture Forest Service, National Interagency Fire Center, National Oceanic and Atmospheric Administration, Federal Aviation Administration, and General Atomics Aeronautical Systems Inc., these flights represented an historic achievement in the field of unmanned aircraft technology.

is another excellent book written by Pane Andov. It gives step by step instructions for awakening human latent astral potentials, how to visit other dimensions, what to do and what not to do there. Among many other things, Andov is a lifetime astral traveler with over 30,000 out of body experiences and thousands of students worldwide. His knowledge and experience are always a valuable asset to anyone who studies or practice the art of astral projection. Andov clearly explains that the physical dimension that we are currently living in, is not the only one that exists and that there are other six dimensions that our soul essence can visit and manifest on. In other words, our soul essence - which is the consciousness itself, is capable of multidimensional presence. What the Astral Plane is a concern, as with any other living forms in the Universe, the same principle applies for the human

beings - the length and the reachable distance while out of physical bodies, will vary on the amount of life force the consciousness has during the process of astral departure or separation from the biological host. During the sleeping time, the astral body of the human being departs from the physical host and enters the Astral Plane where it starts collecting life force energy that is essential for biological existence. The entire recharging process is fully explained, which gives valuable clues to the student, of how the dynamics of the energy transfer between the astral, etheric and physical body works. A part in the book deals with dreaming programs of holographic nature; why we are perceiving them inside the Astral Plane or how they are artificially manifested inside our consciousness. A complete elaboration of four sources that the dreaming programs can originate from are given and how

one can break the dreaming hologram and regain a full awareness on the Astral Plane. During the sleeping time, many people experience something that is called a "Sleep paralysis" phenomenon. Sleep paralysis is a phenomenon during which an individual is unable to move physically during falling asleep or awakening, but is aware of his/hers surroundings. The author provides the techniques of how to safely exit the Sleep paralysis state and to use it as an advantage to raise the Kundalini energy and achieve high-quality astral traveling. The entire training manual is given how one can tune into a progressive meditative state and by learning Andov's five system method, can achieve remote viewing, astral travel and a lot more. A complete guide book for those who are practicing these arts, which saves years of useless experimentation. For all the beginners, many shortcuts are given

how to get them from a starting level to a very advanced one. A book that will change your life in six months if the techniques and instructions are followed correctly and as advised. Once one becomes an astral traveler, he/she starts learning about the Dimensional Gates and the ultimate exploration of the Universe begins...

The event remains one of mankind's greatest achievements and was witnessed by the largest worldwide television audience in history. In the years since, millions more have had their earth-centric perspective changed forever by gazing at the iconic photograph of Aldrin standing on the surface of the Moon with the blackness of space behind him. story. In *Magnificent Desolation*, Aldrin not only gives us a harrowing first-person account of the lunar landing that came within seconds of failure, as well as the ultimate insider's view of life as one of the superstars of America's space program, he also opens up with remarkable candor about his more personal trials - and eventual triumphs - back on Earth. From the glory of being part of the mission that fulfilled President Kennedy's challenge to reach the Moon before the decade was out, Aldrin returned home to an Air Force career stripped of purpose or direction, other than as a public relations tool that NASA put to relentless use in a seemingly nonstop world tour. The twin demons of depression and alcoholism emerged - the first of which Aldrin confronted early and publicly and the second of which he met with denial until it nearly killed him. As an adventure story, a searing memoir of

self-destruction and self-renewal, and as a visionary rallying cry to once again set our course for Mars and beyond, *Magnificent Desolation* is the thoroughly human story of a genuine hero.

Saturn Pane Andov 2019-05-28 In 1986, Dr. Norman Bergrun published the book "Ringmakers of Saturn". He discovered strange anomalies in the Saturn

system and based on collected NASA evidence he concluded that human civilization is not the only one in our solar system. On several photos and video evidence, he clearly pinpointed the existence of huge electromagnetic vehicles (EMVs) under intelligent control which was directly involved in the creation of rings on Saturn. This book picked up where Dr. Norman Bergrun left off back in 1986 and it went much deeper into the subject matter of the extraterrestrial presence in the Saturn system. The author is also an astral traveler with extensive experience and a contactee of a rare type. Andov's conclusions based on many years of extensive UFO research and direct astral observation are filling the gaps in the Big Picture which are currently missing. In 1964, Russian astrophysicist Nikolai Kardashev figured out that civilizations can be categorized by the total amount of energy available

to them. He defined three levels of civilizations (Type I, Type II and Type III) based on their capacity to harness and use power, as well as the amount of knowledge the civilizations have access to. Type III can control energy on the scale of its entire host galaxy. Once it reaches the level of knowledge to harvest galactic energy, Type III can take a path of light, coexistence, prosperity which will lead towards further evolution or it can take a path that also leads to progress and expansion but will be full of darkness, manipulation and the exploitation of lower evolved civilizations. However, by taking the dark path it will seriously slow down the real evolution of Type III civilization towards Type IV civilization. In case Type III civilization has exhausted the power of a single star, it can easily reach out to other star systems. No natural catastrophe known to human

has the capacity to destroy a Type III civilization. The potentials are enormous, however, the appetite to grow and expand further can sometimes turn this type of civilization into a vampire type of predator that exploits and consumes the life force energy of the lower evolved civilizations. Unfortunately, a Type III civilization that exactly matches that description is present in this solar system and it uses a combination of highly sophisticated technology and the natural transmitting capacity of planet Saturn to manipulate the Astral Plane of planet Earth for purposes that will further be explained. During the last planetary conflict with the "gods" which happened around 4,000 ago, the Optimal Genetic Expression was lost. In other words, the biological gigantism on planet Earth was lost, the DNA abundance was no longer possible, and the human genetic functionality was downgraded.

With only 5 sense input and higher abilities of consciousness deactivated, the humankind became an easy target for many abusive ET species that stayed in the solar system. This book contains an abundance of scientific data collected by Cassini and other spacecraft in our solar system. In parallel, there is a metaphysical explanation of all that is happening. It is a perfectly balanced mix between advanced space science and metaphysical knowledge. The comments about many unexplained phenomena in our solar system are a product of Andov's direct observation on the Astral Plane. One thing is for sure. This book will take deep into the mysteries of the gigantic Saturn system and the presence of intelligently controlled space vehicles of enormous sizes. Explanations are given what exactly these EMVs are doing in "our" solar system, how they function and why.
