Jewels Of Stringology: Text Algorithms Maxime Crochemore 2002-09-16 The term "stringology" is a popular nickname for text algorithms, or algorithms on strings. This book deals with the most basic algorithms in the area. Most of them can be viewed as "algorithmic jewels" and deserve reader-friendly presentation. One of the main aims of the book is to present several of the most celebrated algorithms in a simple way by omitting obscuring details and separating algorithmic structure from combinatorial theoretical background. The book reflects the relationships between applications of text-algorithmic techniques and the classification of algorithms according to the measures of complexity considered. The text can be viewed as a parade of algorithms in which the main purpose is to discuss the foundations of the algorithms and their interconnections. One can partition the algorithmic problems discussed into practical and theoretical problems. Certainly, string matching and data compression are in the former class, while most problems related to symmetries and repetitions in texts are in the latter. However, all the problems are interesting from an algorithmic point of view and enable the reader to appreciate the importance of combinatorics on words as a tool in the design of efficient text algorithms. In most textbooks on algorithms and data structures, the presentation of efficient algorithms on words is quite short as compared to issues in graph theory, sorting, searching, and some other areas. At the same time, there are many presentations of interesting algorithms on words accessible only in journals and in a form directed mainly at specialists. This book fills the gap in the book literature on algorithms on words, and brings together the many results presently dispersed in the masses of journal articles. The presentation is reader-friendly; many examples and about two hundred figures illustrate nicely the behaviour of otherwise very complex algorithms.

The Home-Coming Rabindranath Tagore 2014-12-25 Rabindranath Tagore, also written Rabindranatha Thakura, (7 May 1861 - 7 August 1941), sobriquet Gurudev, was a Bengali polymath who reshaped Bengali literature and music, as well as Indian art with Contextual Modernism in the late 19th and early 20th centuries. Author of Gitanjali and its "profoundly sensitive, fresh and beautiful verse", he became the first non-European to win the Nobel Prize in Literature in 1913. In translation his poetry was viewed as spiritual and mercurial; however, his "elegant prose and magical poetry" remain largely unknown outside Bengal. Tagore introduced new prose and verse forms and the use of colloquial language into Bengali literature, thereby freeing it from traditional models based on classical Sanskrit. He was highly influential in introducing the best of Indian culture to the West and vice versa, and he is generally regarded as the outstanding creative artist of the modern Indian subcontinent, being highly commemorated in India and Bangladesh, as well as in Sri Lanka, Nepal and Pakistan.

Fire from the Rock Sharon Draper 2008-09-18 Sylvia is shocked and confused when she is asked to be one of the first black students to attend Central High School, which is scheduled to be integrated in the fall of 1957, whether people like it or not. Before Sylvia makes her final decision, smoldering racial tension in the town ignites into flame. When the smoke clears, she sees clearly that nothing is going to stop the change from coming. It is up to her generation to make it happen, in as many different ways as there are colors in the world.

In Such Good Company Carol Burnett 2016-09-13 In this New York Times bestseller, comedy legend Carol Burnett tells the hilarious behind-the-scenes story of her iconic weekly variety series, The Carol Burnett Show. In In Such Good Company, Carol Burnett pulls back the curtain on the twenty-five-time Emmy-Award winning show that made television history, and she reminisces about the outrageously funny and tender moments that made working on the series as much fun as watching it. Carol delves into little-known stories of the guests, sketches and improvisations that made The Carol Burnett Show legendary, as well as some favorite tales too good not to relive again. While writing this book, Carol rewatched all 276 episodes and screen-grabbed her favorite video stills from the archives to illustrate the chemistry of the actors and the improvisational magic that made the show so successful. Putting the spotlight on everyone from her costars to the impressive list of guest stars, Carol crafts a lively portrait of the talent and creativity that went into every episode. With characteristic wit and incomparable comic timing, she details hiring Harvey Korman, Vicki Lawrence, Lyle Waggoner, and Tim Conway; shares anecdotes about guest stars and close friends, including Lucille Ball, Roddy Mcdowell, Jim Nabors, Bernadette Peters, Betty Grable, Steve Lawrence, Eydie Gorme, Gloria Swanson, Rita Hayworth, and Betty White; and gives her take on her favorite sketches and the unpredictable moments that took both the cast and viewers by surprise. This book is Carol's love letter to a golden era in television history through the lens of her brilliant show. Get the best seat in the house for "eleven years of laughter, mayhem, and fun in the sandbox."

The Year in Television, 2008 Vincent Terrace 2009-06-08 In 2008, the broadcast networks, cable channels and syndication produced nearly 1,100 new and continuing entertainment programs—the most original productions in one year since the medium first took hold in 1948. This reference book covers all the first run entertainment programs broadcast over the airwaves and on cable from January 1 through December 31, 2008, including series, specials, miniseries, made-for-television movies, pilot films, Internet series and specialized series (those broadcast on gay and lesbian channels). Alphabetically arranged entries provide storylines, performer/character casts, production credits, day/month/year broadcast dates, type, length, network(s), and review excerpts.

Technicolored Ann Duccille 2018 Black feminist critic Ann duCille combines cultural critique with personal reflections on growing up with TV as a child in the Boston suburbs to examine how televisual representations of African Americans--ranging from I Love Lucy to How to Get Away with Murder--have changed over the last sixty years.

The Man Who Went to the Far Side of the Moon Bea Uusma Schyffert 2003-07 Presents a biography of the astronaut, Michael Collins, who circled the moon in the Apollo 11 space capsule while his colleagues Neil Armstrong and Buzz Aldrin landed the lunar module and walked on the moon.

Jude Kate Morgenroth 2010-05-11 "Listen, you're young. We don't send kids to jail. If you had something to do with this, it's better to tell us. Then we can help you. Maybe it was a friend of yours come to take care of things for you. You've got a nasty bruise there, and your neighbors told us that you tend to get a lot of bruises. We take those things into account, you know. We understand about things like that." "You don't understand anything," Jude said. After Jude watches his drug-dealer father get gunned down at the kitchen table, he's taken from their dangerous neighborhood to a comfortable home, an elite private school, and a mother he doesn't remember. Only fifteen, Jude is under suspicion for his father's murder, but to save his own life, he can't tell the police what he knows. To make things worse, Jude's mother is the district attorney. She can protect him from the police -- but when Jude's classmate overdoses on heroin, Jude is implicated, and his mother decides to prosecute. Jude is determined to clear his name, though he doesn't know that mysteries from his past have yet to be revealed -- secrets that will forever alter the course of his life. Jude's gripping story is at once moving and horrifying as it traces a young man's quest for acceptance and his incredible capacity for hope and resilience. Kate Morgenroth, whose adult novels have been called "nearly impossible to put down" by Time Out New York and "compulsively readable" by Entertainment Weekly, here shows more of her considerable talent.

Cue the Bunny on the Rainbow Alan Rafkin 1998-11-01 For director Alan Rafkin, television is probably the silliest and most volatile business in the world. Yet whether he was catching a pie in the face or working with an array of eccentric and talented stars, Rafkin was addicted to television from day one. In this autobiography, Rafkin recounts his behind-the-scenes experience working in over 80 different television series. Some of the most beloved sitcoms of all time, such as The Andy Griffith Show, The Dick Van Dyke Show, M*A*S*H, Murphy Brown, and Coach adorn his directorial resume and illuminate Rafkin's ability to change with the times and persevere in the young world of show business. He recounts how directing strung-out actors and dodging their blows made life on the set a world unto itself. Rafkin further describes how having a good sense of humor helped him survive three divorces and three open-heart surgeries. **How to Catch a Turkey** Adam Wallace 2018-09-04 A New York Times Bestseller! Wittgenstein: Mind and Language R. Egidi 2013-03-09 Wittgenstein: Mind and Language brings together a collection of previously unpublished essays which offer a systematic account of Wittgenstein's philosophy of mind and contribute in an absolutely new and original way to illuminating his later conception of human perceptive, emotional and cognitive language from both a theoretical and an historical point of view. The focus is on the fundamental categories of philosophical grammar, on the analysis of intentionality, of belief and Moore's paradox, on certainty and doubt, on will, memory, sensations and emotions, as well as on the theory of aspects and private language and the relationship with relativism and psychologism. In the recent literature there are undoubtedly numerous qualified publications dedicated to the themes of philosophical psychology as they emerge from Wittgenstein's Nachlaß and from his writings on this subject published in the last decade. This book, however, provides the essential points of reference of Wittgenstein's late treatment of psychological concepts in the context of the general features of his early philosophy of science and language and in the framework of the trends of his time. The book is of special interest to scholars and students, philosophers, linguists, psychologists, sociologists, cognitive scientists, logicians, historians of contemporary philosophy and science.

The Overachievers Alexandra Robbins 2006-08-08 The bestselling author of Pledged returns with a groundbreaking look at the pressure to achieve faced by America's teens In Pledged, Alexandra Robbins followed four college girls to produce a riveting narrative that read like fiction. Now, in The Overachievers, Robbins uses the same captivating style to explore how our high-stakes educational culture has spiraled out of control. During the year of her ten-year reunion, Robbins goes back to her high school, where she follows heart-tuggingly likeable students including "AP" Frank, who grapples with horrifying parental pressure to succeed; Audrey, whose panicked perfectionism overshadows her life; Sam, who worries his years of overachieving will be wasted if he doesn't attend a name-brand college; Taylor, whose ambition threatens her popular girl status; and The Stealth Overachiever, a mystery junior who flies under the radar. Robbins tackles teen issues such as intense stress, the student and teacher cheating epidemic, sports rage, parental guilt, the black market for study drugs, and a college admissions process so cutthroat that students are driven to suicide and depression because of a B. With a compelling mix of fast-paced narrative and fascinating investigative journalism, The Overachievers aims both to calm the admissions frenzy and to expose its escalating dangers.
