**Fame, Fortune, and Ambition** Osho 2010-04-13 A provocative look at the pursuit of material success and influential power from one of the twentieth century's greatest spiritual teachers. "I want you to be rich in every possible way—material, psychological, spiritual. I want you to live the richest life that has ever been lived on the earth."—Osho *Fame, Fortune, and Ambition*: What is the Real Meaning of Success? examines the symptoms and psychology of preoccupations with money and celebrity. Where does greed come from? Do values like competitiveness and ambition have a place in bringing innovation and positive change? Why do celebrities and the wealthy seem to have so much influence in the world? Is it true that money can't buy happiness? These questions are tackled with a perspective that is thought-provoking, surprising—and particularly relevant to our troubled economic times. Osho challenges readers to examine and break free of the conditioned belief systems and prejudices that limit their capacity to enjoy life in all its richness. He has been described by the *Sunday Times* of London as one of the "1000 Makers of the 20th Century" and by *Sunday Mid-Day* (India) as one of the ten people—along with Gandhi, Nehru, and Buddha—who have changed the destiny of India. Since his death in 1990, the influence of his teachings continues to expand, reaching seekers of all ages in virtually every country of the world.

**The Power of Decision** Raymond Charles Barker 2011-01-06 Introducing the first book in a powerful new series, *The Tarcher Master Mind* Editions: Essential Books of Inspiration, Instruction, and Motivation. What mind can conceive, man can achieve. Our decisions impact every area of our lives. Making better decisions means living a better life. But how can we develop the habit of making great decisions? Every noteworthy achievement the world has ever seen was born with a single thought; and every great man who ever lived has been a man of decision. Raymond Charles Barker's *The Power of Decision* reveals this principle of success and illustrates the process of choice that all of us must take—and that all of us are capable, this very second, of taking—to change our lives and make our dreams come true. Indecisive people are failure prone, and Dr. Barker examines this basic truth while exploring the decision-making process in the individual, and the role of the subconscious mind in either abetting or thwarting each of our conscious decisions. He provides specific steps to shift the balance of decision-making power in your favor, and he brings to light the constant, ever-present power of will to change a situation— and yourself—for the better. Picking up *The Power of Decision* is the moment; and reading it is the decision that will change your life forever.

*James Baldwin Now* Dwight McBride 1999-08-01 Since 1989, there have been over 200 post-conviction DNA exonerations in the United States. On the surface, the release of innocent people from prison could be seen as a victory for the criminal justice system: the wrong person went to jail, but the mistake was fixed and the accused set free. A closer look at miscarriages of justice, however, reveals that such errors are not aberrations but deeply revealing, common features of our legal system. The ten original essays in *When Law Fails* view wrongful convictions not as random mistakes but as organic outcomes of a mishappened larger system that is rife with faulty eyewitness identifications, false confessions, biased juries, and racial discrimination. Distinguished legal thinkers Charles J. Ogletree, Jr., and Austin Sarat have assembled a stellar group of contributors who try to make sense of justice gone wrong and to answer urgent questions. Are miscarriages of justice systemic or symptomatic, or are they mostly idiosyncratic? What are the broader implications of justice gone awry for the ways we think about law? Are there ways of reconceptualizing legal missteps that are particularly useful or illuminating? These instructive essays both address the questions and point the way toward further discussion. *When Law Fails* reveals the dramatic consequences as well as the daily realities of breakdowns in the law's ability to deliver justice swiftly and fairly, and calls on us to look beyond headline-grabbing exonerations to see how failure is embedded in the legal system itself. Once we are able to recognize miscarriages of justice we will be able to begin to fix our broken legal system. Contributors: Douglas A. Berman, Markus D. Dubber, Mary L. Dudziak, Patricia Ewick, Daniel Givelber, Linda Ross Meyer, Charles J. Ogletree, Jr., Austin Sarat, Jonathan Simon, and Robert Weisberg.

**Daemon in the Sanctuary** Wendy C. Hamblet 2013 "Daemon in the Sanctuary"explores the uncanny contradiction between the phenomenological experience of home as a site of nurture and security and the empirical reality that people are far more likely to be hurt and even killed in their own homes by their intimates, rather than at the hands of strangers. Moving from the syrupy tributes of the god of love in Plato's "Symposium"to the subject of domestic violence appears to be a giant leap, but he author shows that embroidered romantic ideas about love prepare the initiate poorly for the reality of intimate connection. Poets and philosophers who lead us to believe that love is heaven sent can leave us craving an extreme experience. We crave an earth-shaking, life-altering intrusion on our tranquility as evidence that love is real. Thus the naive initiate can easily mistake the flutter of the pulse, the quickening of the heart rate, the flush, the confused emotions, and the painful longing as signs of the god's gift. But these are also the signs of fear! Wendy C. Hamblet, a philosopher in the phenomenological line, examines the truth value of phenomenological experience, through the lens of the problem of intimate violence. If Husserl is right and phenomenological method provides the ground of all empirical truth, then what is to be made of the fundamental contradiction between the lived experience of home as a site of nurture and security and of intimates as guardians and caretakers, and the empirical fact, evident in every human society, that people are far more likely to be harmed, and even killed, in their homes or in the homes of their intimates and at the hands of those charged with their care? Hamblet carefully choreographs a dance between the two opposing 'truths' to expose how the lived sense of home, colored by ideals, can tint people's expectations about intimate connection and cloud their ability to recognize the signs of intimate abuse. This book illuminates the dangers and pitfalls of unhealthy intimacy and offers a regimen for loosening the grip of a sickened love's pathological hold.
