Rest Stop Ron Lemco 2011-10-18 Synopsis Rest Stop is a 250 page realistic novel based on real characters I knew while I served my time in prison. It is about the convicts I lived with on a daily basis. The book starts off in prison and gives insight of the living conditions. It tells of the games that are needed in order to survive. It explains the brotherhood that forms between cell mates and the cliques you become part of, not by choice but out of necessity. Following a fight and a stabbing, the four inmates who are held responsible are being transported from a minimum security location to the main prison when they escape. The escape convicts come up with a plan to take over a rest-area on Interstate 15. It was just a few miles from Las Vegas. They figured that the people going to Vegas would have lots of cash on them. Their plan was to rob them and use the money to get out of the country. It is a long way from Oregon State Penitentiary to Las Vegas. A big part of the story takes place on the trip to get to the rest stop, with robbery, murder and rape along the way. The driving force behind the story is the dialog and vivid thought process, not only from the convicts but from the victims. Each chapter gives insight to the mind set and words of the escaped convicts, along with the Warden, the State Police and the Federal agent who is always just one step behind the inmates. The novel begins with a thrilling, fast paced opening. It holds the excited pace up to an unforgettably tense conclusion. Each chapter ends in a poem I wrote while in prison and coincides with the story. The epilogue leaves room for a sequel for a second book. Don't Date a Psycho Dr Keiron Brown 2014-07-29 "What are you, some kinda PSYCHO?" How many times have you said this to someone? Probably a lot. How often has someone said this to you? Hopefully, not so much! Truth is, we've all dated or been involved with someone who drove us nuts or, if we haven't, chances are that we were the ones who got on the other person's nerves. Now, the question is: who is the Psycho; you or the other person? Don't Date a Psycho: Don't Be One, Don't Date One Looks at why we behave in the ways that we do in relationships, what makes us stay with the person we're with and what makes us leave them, and how to tell who is safe to be in a relationship with and who is unsafe. Done with humor and written from more than two decades of clinical experience as a psychologist, Dr. Keiron Brown helps us to gain a clearer understanding of who we are as individuals, who we are as partners in relationships and what makes each and every one us prone to acting a little nuts sometimes when our hearts are at stake.

Swimming Upstream Laura Choate 2015-10-01 A guide to help parents teach their daughters to resist negative cultural messages. Never before have adolescent girls faced so many confusing and contradictory expectations. From a young age, popular culture teaches girls that their worth is based on their appearance, their ability to gain attention, and an ever-increasing accrual of accomplishments. With such unattainable standards, it is no wonder that many girls experience stress, self-doubt, and even mental health problems. Girls struggle to develop an authentic sense of self, even as they attempt to meet a set of impossible cultural expectations. Many parents feel helpless against the onslaught of negative influences targeting their daughters, but in *Swimming Upstream: Parenting Girls for Resilience in a Toxic Culture*, Laura Choate offers a message of reassurance. This book provides parents with a set of straightforward tools they can use to help their daughters navigate the trials and demands of contemporary girlhood. Choate draws upon years of research and counseling literature to teach parents how to instill the power of resilience in their daughters, including developing a positive body image, maintaining healthy relationships with friends and romantic partners, and navigating high-pressure academic environments. Based on cutting-edge research, this book contains the strategies that parents need to prepare their daughters with the life skills they need to resist destructive cultural influences. Though the journey through modern girlhood may be complicated - and even treacherous - this guide offers a user-friendly way for parents to help their daughters thrive in the midst of the negative pressures of modern culture. Practical and engaging, *Swimming Upstream* is a must-read for parents of girls of all ages.

Boys Adrift Leonard Sax 2016-06-28 Why America's sons are underachieving, and what we can do about it. Something is happening to boys today. From kindergarten to college, American boys are, on average, less resilient and less ambitious than they were a mere twenty years ago. The gender gap in college attendance and graduation rates has widened dramatically. While Emily is working hard at school and getting A's, her brother Justin is goofing off. He's more concerned about getting to the next level in his videogame than about finishing his homework. In *Boys Adrift*, Dr. Leonard Sax delves into the scientific literature and draws on more than twenty years of clinical experience to explain why boys and young men are failing in school and disengaged at home. He shows how social, cultural, and biological factors have created an environment that is literally toxic to boys. He also presents practical solutions, sharing strategies which educators have found effective in re-engaging these boys at school, as well as handy tips for parents about everything from homework, to videogames, to medication.

The Academic Entrepreneur John Paul Tabakian 2013-04-17 Public funding for community colleges has been steadily declining since the peak of funding in the 1970s. Surviving the constant threats of budgetary cuts has been a key motivating factor for community colleges to embrace academic entrepreneurialism. I examined the academic entrepreneurial pursuits of one California Community College (CCC) to understand those factors that encourage community college faculty to pursue academic entrepreneurial solutions. The purpose of this qualitative study is to examine factors that encourage academic entrepreneurialism among community college faculty. Specifically, I investigated three categories of factors that influence academic entrepreneurialism: individual, institutional, and environmental. Individual factors include demographic and background characteristics, including age, race, gender, academic training, and previous professional careers. Institutional factors include program offerings available for students, institutional reputation and history, institutional policies and practices, and academic and administrative leadership. Environmental factors relate to the peer influences of a campus that encourages academic entrepreneurial behavior of faculty. The significance of this study lies in the identification of factors that encourage academic entrepreneurialism among community college faculty, ultimately supporting institutional efforts to augment funding. I investigated individual, institutional, and environmental factors that encourage academic entrepreneurialism among community college faculty. Accordingly, the research questions identify key factors that encourage academic entrepreneurialism among community college faculty and explain how they facilitate faculty to engage in academic entrepreneurialism. The research questions that I evaluated in this study are: What individual, institutional, and environmental factors influence community college faculty to engage in academic entrepreneurialism? What is the relationship between faculty background, institutional, and environmental characteristics and the frequency and quality of academic entrepreneurialism among community college faculty? I found that all three factors are essential elements of academic entrepreneurialism among community college faculty. Individual, institutional, and environmental factors consist of people who are all pursuing their self-interest. This follows the tenets of rational choice theory as the study finds that self-interest influences faculty academic entrepreneurialism. The study argues that changes to institutional policies are the key determining factor to encourage academic entrepreneurialism among community college faculty. Institutional policies determine how a college functions and understands the interrelationship between individual, institutional, and environmental factors. Encouraging academic entrepreneurialism among community college faculty requires institutional policies that focus on the fundamental issue: recruiting, retaining, and evaluating community college faculty. The study offers suggestions for how to influence institutional policies that in turn encourage faculty academic entrepreneurialism by addressing the following areas: faculty job descriptions, faculty job announcements, evaluating faculty levels of academic entrepreneurialism, and offering entrepreneurial faculty financial incentives.

Gold, Glory, Girls Paul J. Young 2015-11-13 I want to talk with you about these drives that all men have; gold, glory and girls. I want to keep you from the emptiness that you will certainly experience if these three G's are the focus of your life. Then I want to talk about God, but not in a stuffy, churchy way. You don't need the typical religious approach to life. This often leads to boredom, guilt, business and frankly substitutes the emptiness of gold, glory and girls with another kind of emptiness peddled as the answer to life. I am not going to take you there. I want you to fill the emptiness in your heart and help you find a joy and fulfillment that you have never had before. I want you to experience manly challenge, incredible achievement and find out why you were really made - your true life's purpose. So buckle your seat belt. Get ready for the ride of your life!
