Histories of Computing in Eastern Europe Christopher Leslie 2019-09-11 This book constitutes the refereed post-conference proceedings of the IFIP WG 9.7 International Workshop on the History of Computing, HC 2018, Held at the 24th IFIP World Computer Congress, WCC 2018, in Poznań, Poland, in September 2018. The 16 revised full papers were carefully reviewed and selected from 20 submissions. They reflect academic approaches to history along with the expertise of museum and other public history professionals as well as the experience of computing and information science practitioners. The papers are organized in the following sections: Eastern Europe, Poland, Soviet Union, CoCom and Comecon; analog computing, and public history.

L'Express 1970 Some issues include consecutively paged section called Madame express.

Twelve Years a Slave Solomon Northup 2021-01-01 "Having been born a freeman, and for more than thirty years enjoyed the blessings of liberty in a free State—and having at the end of that time been kidnapped and sold into Slavery, where I remained, until happily rescued in the month of January, 1853, after a bondage of twelve years—it has been suggested that an account of my life and fortunes would not be uninteresting to the public." -an excerpt

The Lesser Evil Victor Klemperer 2013-07-25 The superb, bestselling diaries of Victor Klemperer, a Jew in Dresden who survived the war - hailed as one of the 20th century's most important chronicles. 'Compulsive reading' LITERARY REVIEW 'Deeply engrossing' SPECTATOR 'Klemperer's diary deserves to rank alongside that of Anne Frank' SUNDAY TIMES 'A vivid and powerful account of a remarkable life' SCOTLAND ON SUNDAY June 1945. The immediate postwar period produces many shocks and revelations - some people have behaved better than Klemperer had believed, others much worse. His sharp observations are now turned on the East German Communist Party, which he himself joins, and he notes many similarities between Nazi and Communist behaviour. Politics, he comes to believe, is above all the choice of the "lesser evil". He serves in the GDR's People's Chamber and represents East German scholarship abroad. But it is the details of everyday life, and the honesty and directness, that make these bestselling diaries so fascinating.

Art and Politics in the Weimar Period John Willett 1978 "The period between the end of World War I and Hitler's accession to power witnessed an unprecedented cultural explosion that embraced the whole of Europe but was, above all, centered in Germany. John Willett here provides a brilliant explanation of the aesthetic and political currents which made Germany the focal point of a new, down-to-earth, socially committed cultural movement that drew a significant measure of inspiration from revolutionary Russia and left-wing social thought, American technology, and the devastating experience of war."--Back cover.

Achtung-Panzer! Heinz Guderian 1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

Samuel Beckett Lawrence Graver 1997 The Collected Critical Heritage II comprises 40 volumes covering 19th and 20th century European and American authors. These volumes will be available as a complete set, mini boxes sets (by theme) or as individual volumes. This second set compliments the first 68 volume set of Critical Heritage published by Routledge in October 1995. The Critical Heritage series gathers together a large body of critical figures in literature. These selected sources include contemporary reviews from both popular and literary media.

Rtu Vidyā Sinu Joseph 2020-11-29 The book ?tu Vidy? emerged in search of answers to questions asked by adolescent girls and women in India during the author's interactions with them as part of Menstrual Health workshops, conducted over a span of a decade across rural India. In an attempt to decode menstrual practices, the author undertook a journey across India and studied various indigenous knowledge systems such as ?a?-Dar?ana, ?yurved, Tantra, Cakra, Y?g, ?gama ??stra, Jyotis?a ?a?stra, and several sub-texts from these categories. As a result, the book goes beyond just describing cultural practices and takes a deep dive into explaining the scientific and logical reasoning behind the origin of these practices. This book is for all Indian women who have unanswered questions pertaining to menstrual practices, for menstrual researchers who will find a treasure trove of potential areas for research pertaining to menstrual health, for sportswomen to discover the ancient techniques that worked in sync with women's periods and not against it, and also for the feminist who assumes that cultural practices around menstruation are a taboo that needs to be done away with. The correct understanding of the science behind menstrual practices, as given in this book, will help women prevent menstrual difficulties, develop a positive attitude toward menstruation, and learn to work in sync with

nature's cycles. ?tu (pronounced as ruthu) is one of the terms for menstruation in Sanskrit. Vidy? means knowledge. ?tu Vidy? is the author's attempt to bring together various indigenous knowledge systems that provide information about the science of menstruation, which is relevant even to this day.

Vampire Solstice Starfields 2006-04 For the Vampire community, the Solstice Choosing has been the holiest night of the year - for a hundred thousand years. But this year, something new is about to happen. The oldest prophecies are about to be fulfilled - and the Festival of Blessings is finally upon us.

Songs in the Key of Z Irwin Chusid 2000 Outsider musicians can be the product of damaged DNA, alien abduction, drug fry, demonic possession, or simply sheer obliviousness. This book profiles dozens of outsider musicians, both prominent and obscure—figures such as The Shaggs, Syd Barrett, Tiny Tim, Jandek, Captain Beefheart, Daniel Johnston, Harry Partch, and The Legendary Stardust Cowboy—and presents their strange life stories along with photographs, interviews, cartoons, and discographies. About the only things these self-taught artists have in common are an utter lack of conventional tunefulness and an overabundance of earnestness and passion. But, believe it or not, they're worth listening to, often outmatching all contenders for inventiveness and originality. A CD featuring songs by artists profiled in the book is also available.

Lean CX Robert Dew 2021-04-06 In recent years, many companies have realised customer experience (CX) is the new marketing battle ground. Substantial investments have been made to map customer journeys, identify pain points and improve CX to try and create cut-through. Using real world applications to introduce next generation design tools based on proven concepts from strategy, marketing, psychology and creative problem solving, Lean CX: How to Differentiate at Low Cost and Least Risk discusses how to use Lean Management approaches to innovate your customer experience. This practical book describes how the tools from Lean Management can be applied to the CX innovation problem. The authors draw on hundreds of CX design and strategic innovation projects across a range of industries, both B2B and B2C, from primary research through client work and secondary case studies available in the public domain. The examples include many different vertical industry sectors, including those involving hybrid business models. The cases included share what worked really well and where CX failed. The content goes beyond what actually happened to present an idea of what might be possible with the right design approach and committed resources.

Global Marketing, Global Edition Warren J. Keegan 2015-04-30 For undergraduate and graduate courses in global marketing The excitement, challenges, and controversies of global marketing. Global Marketing reflects current issues and events while offering conceptual and analytical tools that will help students apply the 4Ps to global marketing.

MyMarketingLab for Global Marketing is a total learning package. MyMarketingLab is an online homework, tutorial, and assessment program that truly engages students in learning. It helps students better prepare for class, quizzes, and exams—resulting in better performance in the course—and provides educators a dynamic set of tools for gauging individual and class progress.

The Urban Sketching Handbook: Architecture and Cityscapes Gabriel Campanario 2014-11 Provides keys to help make the experience of drawing architecture and cityscapes fun and rewarding, using composition, depth, scale, contrast, line and creativity.

Braby's Commercial Directory of South, East and Central Africa 1975 Includes: South Africa, Rhodesia, Zambia, Malawi, South-West Africa, Mocambique, Angola, Swaaziland, Botsawana and Lesotho.

Mac OS X Lion in Depth Robyn Ness 2011 Beyond the Basics...Beneath the Surface...In Depth Mac OS X Lion in Depth Do more with Mac OS X Lion-in less time! Mac OS X Lion In Depth is a comprehensive guide to Mac OS X Lion, grounded in real-world advice and experience. The author, Robyn Ness, is a long-time Mac user and provides practical instruction on how to get up and running with Lion, and then move on to more advanced features and options. * Streamline your workflow with Mission Control and Spaces * Organize your apps with Launchpad * Get the most from Lion's multitouch gestures * Set up your desktop and apps to give you a clean start or resume where you left off * Purchase and download apps from the Mac App Store and run full-screen apps * Manage contacts, calendars, and email * Set up user accounts and parental controls * Configure wired and wireless networking * Chat, video chat, and screen-share with Lion's iChat and FaceTime * Use the Safari web browser for reading lists, bookmarks, and RSS * Share files with nearby Lion users with AirDrop * Run Windows and Windows apps on your Mac * Activate Universal Access and accessibility features * Recover files through Versions and Time Machine * Use Lion's built-in disk recovery options Mac OS X Lion In Depth is for any experienced Mac user seeking to deepen their understanding and master the features of the new version of Mac OS X. All In Depth books offer Comprehensive coverage with detailed solutions Troubleshooting help for tough problems you can't fix on your own Outstanding authors recognized worldwide for their expertise and teaching style Learning, reference, problem-solving... the only Mac OS X Lion book you need!

The E.M.G. Story Francis James 1998

Principles of Marketing Gary M. Armstrong 2018 An introduction to marketing concepts, strategies and practices with a balance of depth of coverage and ease of learning. Principles of Marketing keeps pace with a rapidly changing field, focussing on the ways brands create and capture consumer value. Practical content and linkage are at the heart of this edition. Real local and international examples bring ideas to life and new feature 'linking the concepts' helps students test and consolidate understanding as they go. The latest edition enhances understanding with a unique learning design including revised, integrative concept maps at the start of each chapter, end-of-chapter features summarising ideas and themes, a mix of mini and major case studies to illuminate concepts, and critical thinking exercises for applying skills.

Fly and the Fly-Bottle Ved Mehta 2021-02-04 Fly and the Fly Bottle is perhaps Ved Mehta's masterpiece: a collection of his brilliantly revealing conversations with some of the twentieth century's most important philosophers. Engaging with such heavyweights as Isaiah Berlin, Gilbert Ryle, and Elizabeth Anscombe, Mehta is not only able to shed light on the

personalities involved in shaping modern philosophy, as well as on the particularities of that philosophic thought, but also to minutely examine the surrounding atmosphere of mid-century British life.

Fabric Structures in Architecture J Llorens 2015-03-28 Fabric Structures in Architecture covers the varying ways textiles and their properties are used in building construction, with particular focus given to tensile structures. The text begins with the fundamental principles of textiles, including the origins of fabric architecture, then progressing to a discussion of the modern textiles of today. It covers relevant textile materials and their properties, including coatings and membranes. In addition, a range of design considerations are discussed, with detailed information on installation and failure modes. A series of case studies from around the world accompany the discussion, illustrating the applications of textiles in architecture. Offers key coverage of the fundamental principles, from the origins of fabric architecture to modern textile Provides analysis of relevant textile materials and their properties, including coatings and membranes Contains expert insights in to the applications of textiles in architecture, presenting a series of relevant case-studies from around the world

A guide to medieval Denmark Brian Patrick McGuire 1994

Historical Painting Techniques, Materials, and Studio Practice Arie Wallert 1995-08-24 Bridging the fields of conservation, art history, and museum curating, this volume contains the principal papers from an international symposium titled "Historical Painting Techniques, Materials, and Studio Practice" at the University of Leiden in Amsterdam, Netherlands, from June 26 to 29, 1995. The symposium—designed for art historians, conservators, conservation scientists, and museum curators worldwide—was organized by the Department of Art History at the University of Leiden and the Art History Department of the Central Research Laboratory for Objects of Art and Science in Amsterdam. Twenty-five contributors representing museums and conservation institutions throughout the world provide recent research on historical painting techniques, including wall painting and polychrome sculpture. Topics cover the latest art historical research and scientific analyses of original techniques and materials, as well as historical sources, such as medieval treatises and descriptions of painting techniques in historical literature. Chapters include the painting methods of Rembrandt and Vermeer, Dutch 17th-century landscape painting, wall paintings in English churches, Chinese paintings on paper and canvas, and Tibetan thangkas. Color plates and black-and-white photographs illustrate works from the Middle Ages to the 20th century.

Strategic Alliances and Process Redesign Alexander Gerybadze 1995 Strategic alliances have gained widespread attention in the business community, but success factors for cooperation have not been studied rigorously enough. This book reviews new developments in business-oriented economics in order to establish convincing arguments for the efficiency and sustainability of collaborative ventures. It builds on the rich new literature on business process redesign and corporate renewal. Most of these new management concepts still focus on intracorporate restructuring, but have not explicitly dealt with strategic alliances or other types of Inter-institutional arrangements. This book develops process redesign further to enable the study of cooperative projects and (actual symbol not reproducible) networks. **Time** Briton Hadden 2001-05

The Perfect Thing Steven Levy 2006-10-23 On October 23, 2001, Apple Computer, a company known for its chic, cutting-edge technology -- if not necessarily for its dominant market share -- launched a product with an enticing promise: You can carry an entire music collection in your pocket. It was called the iPod. What happened next exceeded the company's wildest dreams. Over 50 million people have inserted the device's distinctive white buds into their ears, and the iPod

has become a global obsession. The Perfect Thing is the definitive account, from design and marketing to startling impact, of Apple's iPod, the signature device of our young century. Besides being one of the most successful consumer products in decades, the iPod has changed our behavior and even our society. It has transformed Apple from a computer company into a consumer electronics giant. It has remolded the music business, altering not only the means of distribution but even the ways in which people enjoy and think about music. Its ubiquity and its universally acknowledged coolness have made it a symbol for the digital age itself, with commentators remarking on "the iPod generation." Now the iPod is beginning to transform the broadcast industry, too, as podcasting becomes a way to access radio and television programming. Meanwhile millions of Podheads obsess about their gizmo, reveling in the personal soundtrack it offers them, basking in the social cachet it lends them, even wondering whether the device itself has its own musical preferences. Steven Levy, the chief technology correspondent for Newsweek magazine and a longtime Apple watcher, is the ideal writer to tell the iPod's tale. He has had access to all the key players in the iPod story, including Steve Jobs, Apple's charismatic cofounder and CEO, whom Levy has known for over twenty years. Detailing for the first time the complete story of the creation of the iPod, Levy explains why Apple succeeded brilliantly with its version of the MP3 player when other companies didn't get it right, and how Jobs was able to convince the bosses at the big record labels to license their music for Apple's groundbreaking iTunes Store. (We even learn why the iPod is white.) Besides his inside view of Apple, Levy draws on his experiences covering Napster and attending Supreme Court arguments on copyright (as well as his own travels on the iPod's click wheel) to address all of the fascinating issues -- technical, legal, social, and musical -- that the iPod raises. Borrowing one of the definitive qualities of the iPod itself, The Perfect Thing shuffles the book format. Each chapter of this book was written to stand on its own, a deeply researched, wittily observed take on a different aspect of the iPod. The sequence of the chapters in the book has been shuffled in different copies, with only the opening and concluding sections excepted. "Shuffle" is a hallmark of the digital age -- and The Perfect Thing, via sharp, insightful reporting, is the perfect guide to the deceptively diminutive gadget embodying our era.

Raspberry Pi Projects Andrew Robinson 2014-01-10 Learn to build software and hardware projects featuring the Raspberry Pi! Congratulations on becoming a proud owner of a Raspberry Pi! Following primers on getting your Pi up and running and programming with Python, the authors walk you through 16 fun projects of increasing sophistication that let you develop your Raspberry Pi skills. Among other things you will: Write simple programs, including a tic-tac-toe game Re-create vintage games similar to Pong and Pac-Man Construct a networked alarm system with door sensors and webcams Build Pi-controlled gadgets including a slot car racetrack and a door lock Create a reaction timer and an electronic harmonograph Construct a Facebook-enabled Etch A Sketch-type gadget and a Twittering toy Raspberry Pi Projects is an excellent way to dig deeper into the capabilities of the Pi and to have great fun while doing it.

Design Thinking Methodology Book Emrah Yayici 2016-12-14 This book explains design thinking methodology that is applied by high-performing enterprises, start-ups and organizations in developing innovative products; technologies; services; business models; marketing ideas; processes; spaces; and solutions for diverse business, social, and everyday challenges. It includes easily applicable design thinking techniques, such as HMW questions, personas, mind mapping, empathy mapping, affinity diagram, value-proposition canvas, storyboard, cause-and-effect diagram, brainstorming, brain dumps, reverse brainstorming, benchmarking, journey map, and prototyping. A real-life case study is used to introduce design thinking methodology and techniques in a more practical way to a broad range of practitioners, including project managers and IT specialists, innovation teams, marketing professionals and brand managers, product managers, designers, consultants, strategic planning experts, C-level executives, and architects. The book explains how artful thinking perspectives can be applied to enhance design thinking skills, such as creativity, thinking out of the box, empathy, visual thinking, observation, asking the right questions, and pattern recognition. It also describes how to apply design thinking and lean and agile methodologies together."
